

SELECTOR DISK - DIMENSIONED ENGINEERING DRAWING

Passive lumbar exoskeleton | Supplementary File S1

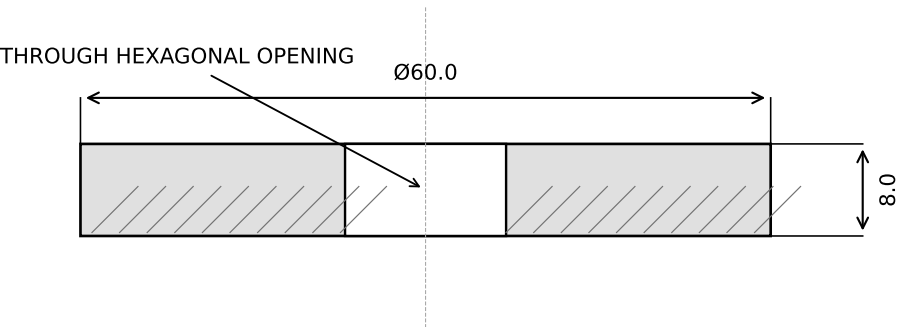

(a) TOP VIEW

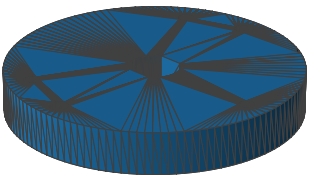

(b) FRONT VIEW

(c) SECTION A--A

(d) ISOMETRIC VIEW

CRITICAL FEATURES

- External diameter: 60.0 mm
- Thickness: 8.0 mm
- Three selector positions
- Angular spacing: 120°
- Selector holes: Ø5.5 mm
- Central hexagonal opening
- General tolerance: ±0.2 mm
- Hole tolerance: +0.2/0.0 mm
- Units: mm

NOTES

1. Nominal dimensions measured from the final STL model.
2. The disk adjusts spring preload; it does not change spring stiffness.
3. Do not scale this drawing.
4. Verify fit before final assembly.

PART NAME	MATERIAL	SCALE	SHEET
Selector disk (Disco_Selector)	As specified in manuscript	NTS	SD-01 / Rev. 1.0
